On September 21, 2022, pursuant to a written consent of the board of directors, the Company’s board of directors approved amending and restating the Company’s Certificate of Incorporation to decrease the Company’s authorized Common Stock from 5,000,000,000 shares to 500,000,000 shares.

The Company filed the Amended and Restated Certificate of Incorporation with Nevada’s Secretary of State reflecting the foregoing change with an effective date and time of September 21, 2022.

Basis of Presentation

The accompanying condensed financial statements are unaudited. The unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted, although the Company believes that the disclosures made are adequate to make the information not misleading.

These interim financial statements as of and for the three and nine months ended September 30, 2022 and 2021 are unaudited; however, in the opinion of management, such statements include all adjustments (consisting of normal recurring accruals) necessary to present fairly the financial position, results of operations and cash flows of the Company for the periods presented. Operating results for the three and nine months ended September 30, 2022 are not necessarily indicative of the results that may be expected for the year ending December 31, 2022 or any future periods.

Going Concern

The accompanying unaudited condensed financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company currently has only recently commenced revenue generating activities. Additionally, the Company has recurring operating losses, negative cash flows from operations and has a working capital deficit of \$3,035,529 at September 30, 2022. These factors raise substantial doubt about the Company's ability to continue as a going concern.

The Company's ability to continue existence is dependent upon commencing its planned operations, management's ability to develop and achieve profitable operations and/or upon obtaining additional financing to carry out its planned business. However, there can be no assurance that these arrangements will be sufficient to fund its ongoing capital expenditures, working capital, and other cash requirements. The outcome of these matters cannot be predicted at this time.

There can be no assurance that any additional financings will be available to the Company on satisfactory terms and conditions, if at all. In the event we are unable to continue as a going concern, we may elect or be required to seek protection from our creditors by filing a voluntary petition in bankruptcy or may be subject to an involuntary petition in bankruptcy. To date, management has not considered this alternative, nor does management view it as a likely occurrence.

The accompanying unaudited condensed financial statements do not include any adjustments related to the recoverability or classification of asset-carrying amounts or the amounts and classification of liabilities that may result should the Company be unable to continue as a going concern.

Note 2 - Summary of Significant Accounting Policies

Use of estimates

The preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States ("GAAP") requires management to make estimates and assumptions that affect amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the date of the financial statements and reported amounts of revenues and expenses during the periods presented. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from these estimates.

Cash and cash equivalents

For purposes of the statement of cash flows, cash and cash equivalents includes demand deposits, saving accounts and money market accounts. The Company considers all highly liquid debt instruments with maturities of three months or less when purchased to be cash and cash equivalents. The Company has no cash equivalents.

Accounts receivable

The Company regularly reviews accounts receivable for any bad debts based on an analysis of the Company's collection experience, customer credit worthiness and current economic trends. Based on management's review of accounts receivable, no allowance for doubtful accounts was deemed necessary at September 30, 2022.

Inventory

Inventory at September 30, 2022 consists of finished goods and is stated at the lower of cost or market, determined by first-in, first-out method, or market. Market is determined based on the net realizable value, with appropriate consideration given to obsolescence, excessive levels, deterioration, and other factors.

Revenue recognition

The Company has adopted the revenue recognition guidelines in accordance with ASC 606, Revenue from Contracts with Customers (ASC 606). The Company analyzes its contracts to assess that they are within the scope and in accordance with ASC 606. In determining the appropriate amount of revenue to be recognized as the Company fulfills its obligations under each of its agreements, the Company performs the following steps: (i) identification of the promised goods or services in the contract; (ii) determination of whether the promised goods or services are performance obligations including whether they are distinct in the context of the contract; (iii) measurement of the transaction price, including the constraint on variable consideration; (iv) allocation of the transaction price to the performance obligations based on estimated selling prices; and (v) recognition of revenue when (or as) the Company satisfies each performance obligation. The Company acts as a principal in its revenue transactions as the Company is the primary obligor in the transactions. Generally, the Company recognizes revenue for its products upon shipment to customers, provided no significant obligations remain and collection is probable.

Basic and diluted loss per share

We utilize ASC 260, “Earnings Per Share” for calculating the basic and diluted loss per share. In accordance with ASC 260, the basic and diluted loss per share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding. Diluted net loss per share is computed similar to basic loss per share except that the denominator is adjusted for the potential dilution that could occur if stock options, warrants, and other convertible securities were exercised or converted into common stock. Potentially dilutive securities are not included in the calculation of the diluted loss per share if their effect would be anti-dilutive. The Company has 44,384,202 and 443,318,122 common stock equivalents at September 30, 2022 and 2021, respectively. For the three and nine months ended September 30, 2022 and 2021 these potential shares were excluded from the shares used to calculate diluted earnings per share as their inclusion would reduce net loss per share.

Fair value of financial instruments

Our short-term financial instruments, including cash, accounts payable and notes payable, consist primarily of instruments without extended maturities, the fair value of which, based on management’s estimates, reasonably approximate their book value.

Income taxes

The Company utilizes ASC 740 “Income Taxes” which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each year-end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income.

Concentrations of Credit Risk

Financial instruments that potentially expose the Company to concentrations of credit risk consist primarily of cash.

The Company places its cash on deposit with financial institutions in the United States. The Federal Deposit Insurance Corporation covers \$250,000 for substantially all depository accounts. The Company from time to time may have amounts on deposit in excess of the insured limits. The Company had no uninsured balances at September 30, 2022 or December 31, 2021.

Intangible assets

Intangible assets consist of the assets associated with and related to the Trevi bottled water brand, Tickle Water brand, Cause Water brand and KOZ Water brand, and all associated intellectual property rights, including recipes, trademarks, service marks, designs, logos, websites and common law rights and customer and vendor lists. Intangible assets aggregating \$61,025 were placed in service during the third quarter of 2022, and have an estimated economic

life of three years. Amortization expense for the three and nine months ended September 30, 2022 was \$3,390. Intangible assets aggregating \$173,900 have not been placed in service at September 30, 2022.

Recently Issued Accounting Standards
